GAME CH^{NGER}™ | 3rdBASE

igloo
AN OUT OF OFFICE EXPERIENCE

The Igloo system starts with single lightweight panel clad in your choice of fabric. By adding additional panels your desired configuration is quickly and simply achieved.

Igloo's ingenious snap together system locates every panel exactly. The snap system makes it simple to reconfigure your office without so much as a single bolt.

Each Igloo element locates accurately and securely every time. The screen edges are finished with a silver trim element that also locates instantly and exactly.

Build linked desking, meeting rooms, utility areas or informal discussion areas. Your imagination is your only limit, it's all so easy with Igloo.

igloo

AN OUT OF OFFICE EXPERIENCE

TIME TO CHANGE THE GAME

The Igloo system can be configured as a completely enclosed meeting room. The upholstered acoustic panels offer increased privacy. Igloo meeting areas can be furnished with our informal multi-shaped ROCKS Ottoman seating. They come in different heights and colours and combine beautifully with the elegant ribbon table. Working spaces with a side of sociability.

Our latest addition to the Igloo meeting area is the innovative Meeting Pod. The digital Pod allows up to six data inputs simultaneously, so laptops and smart devices can connect and display images or data on the HD monitor at the flick of a switch. No more fumbling for cables and connectors.

GAME CHANGER™ | 3rd BASE

Use Igloo to create a purpose built Utility Area. Igloo is easily configured into a tidy, comfortable, low noise environment to house photocopiers, printers, binders, paper, ink and all those supplies that an efficient office needs. The notoriously scruffy Utility Area is now well contained, efficient quiet, and completely out of sight.

The interconnected Igloo desking system provides complete versatility and can be configured in endless shapes and lengths to suit available space. Office space is at a premium, Igloo provides the perfect solution. It is easy to reconfigure and adapt to your ever changing needs, providing you with the freedom to choose how you work.

Angel Shack story

TIME TO CHANGE THE GAME

In this interconnected world, how do we connect our people?

Can we create a system that is light and simple to assemble?

Can we create a versatile system that we can reconfigure at any time?

The bright idea

The way we interact in the office is changing fast. Great ideas aren't created in austere boardrooms. Clever solutions can't wait for formal meetings. The best interactions happen spontaneously, great ideas happen when inspired people swap ideas. Modern companies understand that informal meeting areas are where their bright young things get together to create bright ideas. An area that is relaxed and comfortable. Igloo is our solution.

1 World-class ideas

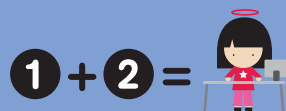

We've had a long list of great ideas that needed clear thought and innovative solutions. So our best brains got together to find clever ways to bring these ideas a little closer to production.

2 World-class production team

We then put together our World-class product development team. And combined them with our manufacturing, marketing, logistics, quality control and environmental standards specialists. The result is an innovative new product that is ready to take on the World.

The result is a GameChanger

Inspiring systems for creating, writing, meeting, dreaming and working. All of them environmentally smart. All of them proudly conceived and manufactured in South Africa. Our ambition is to be the number one choice for thinking people who want to work in a better World. Please join us.
